Creating a SAW Account

Created 7-23-2009 by Annie Strader
Follow this link.  Secure Access Washington Home

Click on “Create One” as Circled in the screen shot.
Click the Start Button on the SAW start page.

Fill in the personal information asked for...
Fill in username and password. Notice that there are requirements for the password.

Create a user ID and password:

**NOTE:** We value the security of your personal information. In order to protect this information, your password will expire **every 120 days**.

User ID: Dahlspupport
Password: 
Confirm Password: 

**Requirements for a secure password:**

Choose a password with:
- at least 8 characters
- no spaces
- either upper or lower case letters
- at least one special character like $ @ !
- no user ID in it
When you have created a password that is secure enough for the system, you will see this.
The system then requires a check that it is an actual human signing up for an account. You must enter the information in the box.
You will then receive an email from the system. You must click the link in the email.

Thank you for signing up with SecureAccess Washington.

Your SecureAccess Washington account [dashsupport] has been successfully created.

To activate your new account, click the following link:

SecureAccess Washington is the entry point to a growing list of state government services via a single user account. Once you complete your sign-up, you may add services to your new account by logging in and choosing "Add Service" tab. The service you choose to add may require an additional service registration process.

Although it is not common, with some email clients, you may need to use the following information to activate your account:

Your User ID: dashsupport  
your Registration Code: 9024

If you have questions about using SecureAccess Washington or need assistance using this service, please visit our customer support center at http://support.secureaccess.wa.gov/index.asp.html.

SecureAccess Washington  
Login at http://secureaccess.wa.gov/pwyaccess/esw/select.do
You should then be able to log in to your account.
